

**Department of Primary Industries, Parks, Water
and Environment**
Application to Subdivide an Existing Water Allocation

Use this form to apply to subdivide an existing water allocation on a Water Licence.

If you have an existing Water licence with an allocation and wish to transfer only part of that allocation to another person you must first subdivide the allocation into two or more separate allocations so that one can be transferred while the other remains on your licence.

The only detail that can be changed using this form is the period amount. The take period, surety and purpose will remain the same for all of the allocations.

If, once the allocation has been subdivided, you intend to move the offtake point of one of the new allocations then you must complete the [application form to change the offtake of an existing water allocation](#).

If you have any questions about what is required it is recommended you contact a Regional Water Management Officer at your local DPIPWE office.

There are extensive details on water licensing on the Department's web site: <http://dpiuwe.tas.gov.au/water>

Steps to Completing this Form

1. **Complete the Applicant details.** These are the details of the existing licence holder and are set out at the top of your Water Licence .
2. **Complete the details of the water allocation to be subdivided.** Here you need to identify the water allocation number, this is set out above the allocation on your Water Licence. You must also state the how you want the allocation to be split and obviously the total period amount of the two new allocations must equal the period amount of the original allocation.
3. **Submit the completed and signed Application.** There are two options for submitting the completed application ;
 - Post the completed application to:
DPIPWE, Water Management & Assessment Branch, PO Box 44, Hobart TAS 7001
or
 - Lodge the completed application at any Service Tasmania outlet.
