

Know your water licence

Irrigation	Maximum Daily Take (ML/day)	Period Amount (ML)	Surety Level	Start Date	End Date
Water Resource		120.000	5	1 May	30 Nov
BOYES CREEK					
Map Name (Number)					
				Offtake Easting	Offtake Northin
				522418	

Your water licence gives you the right to take water under the *Water Management Act (1999)*. To be compliant with your water licence (**Who**), you need to take the specified amount of water (**What**) from the named water source (**Where**) at the right time (**When**).

Who

can take the water?

- only the person whose name is on the licence or persons under the licence holder's direction
- apply to DPIPW E for an amendment

What

volume of water can be taken?

- only the volume stated on the licence under 'period amount'

Where

can the water be taken from?

- only from water source and location as stated on your licence
- contact DPIPW E to discuss offtake locations

When

can the water be taken?

- only during the period stated on the licence

There are a number of conditions on licences, including requirements to keep records and to pass inflows.

DPIPW E generally assumes most licence holders do the right thing most of the time. Education and informal warnings are often the first step taken with any licence compliance activity.

Formal action may be taken if a licence holder either intentionally or consistently breaches their licence. Formal action includes fines and a system of demerit points similar to that used for traffic offences.

If you would like to discuss your water licence, contact Water Operations Branch Field Staff by either phoning 1 300 368 550 or emailing water.operations@dPIPWE.tas.gov.au

Water Management Act 1999 (Pursuant to Part 6) WATER LICENCE

Joseph Bloggs
27 Church Street
Launceston TAS 7250

Licence No. 21510
Expiry Date 30 November 2052
Client ID 26629
File No. 14 24 25

Licence Holder Joseph Bloggs

This licence authorises the taking of water in accordance with the following, subject to the conditions specified herein. Notwithstanding the expiry date shown above, this licence is subject to the payment of annual fees under the Water Management Regulations, and is not valid until the Department has received payment of these fees. The fees are due on 30 November each year.

All allocations are in megalitres or ML (1 ML = 1 million litres)

Allocation 15908

Allocation Purpose	Maximum Daily Take (ML/day)	Period Amount (ML)	Surety Level	Start Date	End Date
Irrigation		120.000	5	1 May	30 Nov

Water Resource	Map Name (Number)	Offtake Easting	Offtake Northing
BOYES CREEK		522418	5397233

Allocation Conditions

- The licence holder must maintain records that demonstrate the quantity of water taken. When directed by the Minister, the licence holder must provide the Minister with the records in the manner specified by the Minister.
- Whenever the licence holder is taking water under this allocation, at least fifty (50) percent of the instantaneous stream flow at the offtake point must be passed downstream.
- When condition 2 cannot be met, due to stream flows exceeding the maximum capacity of the outlet structure, the licence holder must keep the outlet structure fully open until such time as condition 2 can be met.
