RE: Environmental Management and Pollution Control [Underground Petroleum Storage Systems] Regulations 2020 draft.

Dear Sir/Madam,

Thank you for actively including EMS in the consultation process, we have reviewed the draft regulation in detail having no comments to add at the regulation level.

We believe the proposed changes are consistent with the objectives of reducing risk to UPSS owners, the public and the environment.

We would like to take this opportunity to offer our expertise to support the creation of detailed protocols pertaining to loss monitoring.

Yours sincerely,
