Details of water proposed to be conveyed

Water Resource		Purpose	Start Date	End Date
Release - Easting	Release - Northing	Take - Easting	Take - Northing	
Conveyance Rate per day (ML/day)				
Water to be taken	Water allowed for loss ¹	Water to be released ²		
Conveyance Volume (ML)				
Total water to be taken	Water allowed for loss ¹	Total water to be released ²		

Agreement and acknowledgment

We, the undersigned, agree to convey (ie release and take) water, subject to a “Watercourse Authority” being issued by the Department for the conveyance and in accordance with the conditions of that Authority.

We acknowledge that the “Watercourse Authority” may require conditions to address the following:

- metering to measure the amount of water released and taken;
- impact on the receiving environment including the quality of the conveyed water not causing environmental harm or nuisance;
- impact on other users of the resource including obtaining agreement from all dam owners whose dams the water is to be conveyed through agreeing to the conveyance (Attachment A), and any limitations or restrictions existing infrastructure may present; and
- a 10% loss factor¹ being applied unless otherwise determined by the Department, and the loss factor being increased if it is found that the water release² is not covering the losses sustained in the water getting to the offtake point.

Date:

Attachment A

Agreement of owners of dams that water is to be conveyed through

Agreement

I, undersigned, agree to release the same amount of water of the same quality entering into my dam as per the attached Watercourse Conveyance Agreement.

I have water meters installed to measure the flow entering into and leaving my dam and an outlet pipe (or other release point) to ensure I can meet the above.

I understand that the Department will not be involved in any disputes that may arise from the conveyance of water through my dam.
